

Brandon

All the bugs in my colesson are gross and that is cool. I like a lot of the bugs but the one I like best is the Giant fisher beetle because its pingers really grip things even some ones finger when you ~~keese~~^{skwees} its back, the pingers snap obs. The beetle is better than the fly ~~be~~^{even} tho the flys eyse are cool and glosey green. The beetle is better because its bigger and be cause the fly dosnt do anything good like pick things it just stays still. Today I made the beetle grab the fly and ~~st~~^{pick} it and then I perpertend ~~ate~~^{it ate} a fly for its dinner.
