In the afternoon I ran to the beach, and changed into my bathing suit, then ran to the water and jumped in! I loved it! I swam in zig zags, straight lines and circles. The water was cold! old. dolphin! I was so excited! I jumped on the dolphin. I really wanted the dolphin to jump in the air. I saw a rope on the dolphins fin. I pulled real hard on the rope. I thought people used to ride it and they they used to steer and make the dolphin jump. I got far away from shore. pulling the rope didn't work. I was wrong. "Where are you Katie!" Rebecca yelled from the shore.

I looked back and saw Mom yelling for me. I pulled the rope again trying to turn the dolphin to go forward shore. But it still didn't work. I was afraid to jump off because I thought it was too deep and I could drown. I felt like I had to stay on the dolphin forever. I guessed maybe the dolphin can only hear dolphin language. Maybe I could communicate to the dolphin and tell her to go to shore, but I didn't know dolphin language. "eek eek" I yelled.

Then I just realized I had a dolphin dictionary in my pocket. It tells how to speak dolphin language. I searched the book until I found the words I needed to say to the dolphin. ~~The dolphin~~ "eek eek" I yelled. The dolphin stared at me. Then it turned toward shore. "yay!!" I yelled! "I did it!!" I yelled again when the dolphin got to shore. I jumped on land and hugged Rebecca. "Thank you dolphin" I said. From then on Katie never went anywhere without her mom so she wouldn't get worried.
