how to make color

P.13

Interduckshon

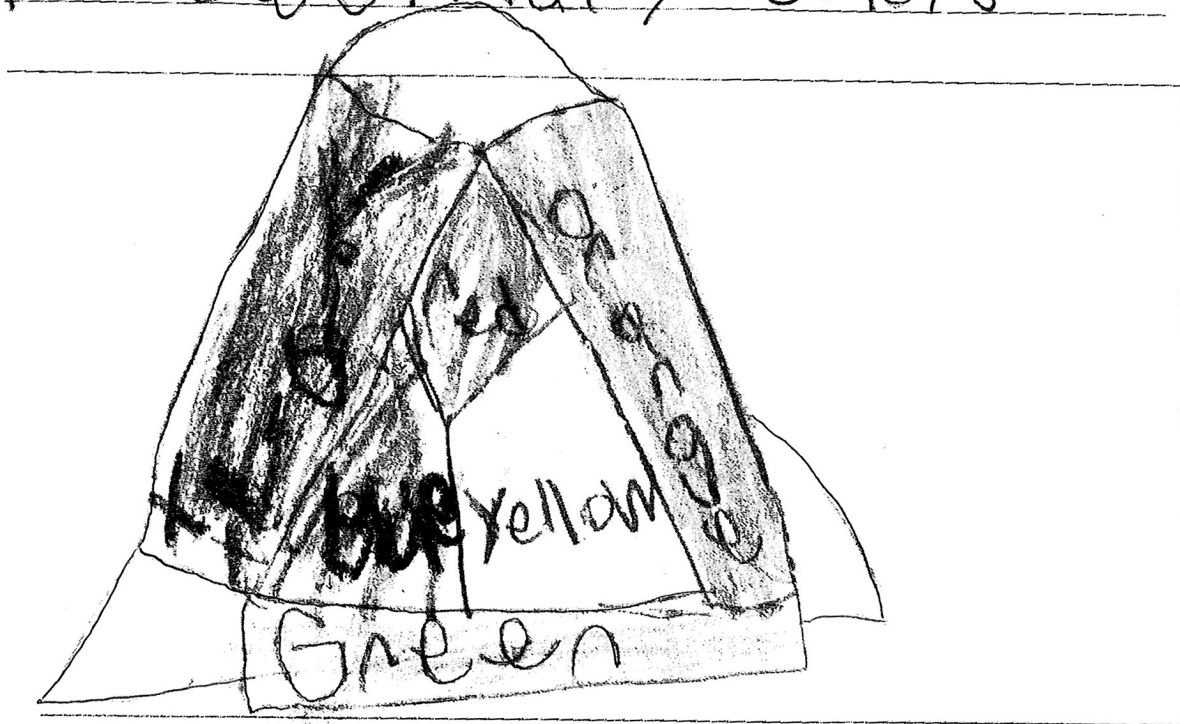

have you ever wonder how
to make colors, have you
ever wonder what the * 3
mane colors are. Well then
this is your lucky Day be cause
in this BOOK you'll learn ~~how~~ ^{into}
make color, ^{What} the mane colors and
thing you never ~~no~~ ~~know~~
knew about color.

The prime colors

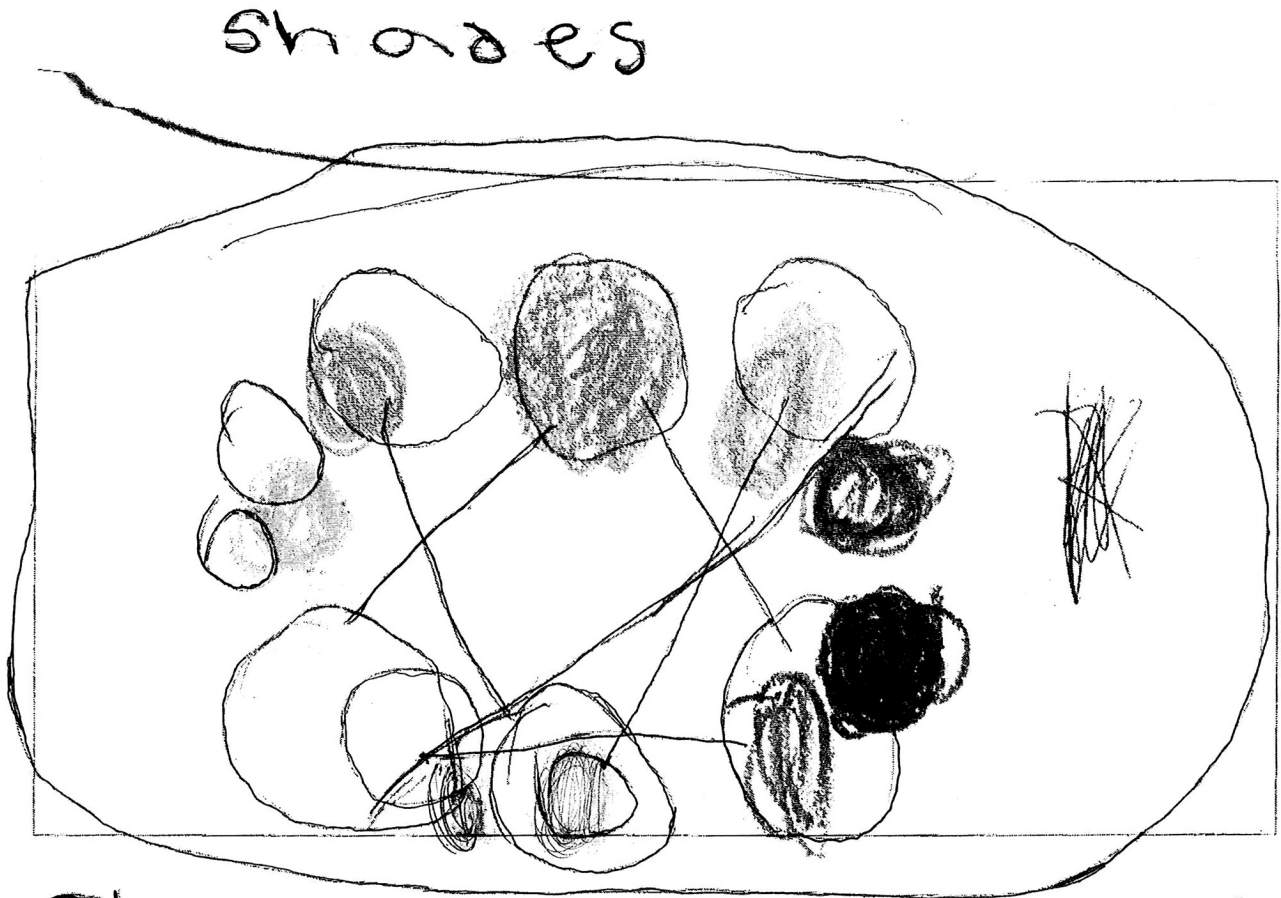

The Primary colors are the main colors. The primary colors are the colors red, yellow and blue. You can mix the primary colors to make lots of colors for exzpl you can make black or green or brown.

The Secondary Colors

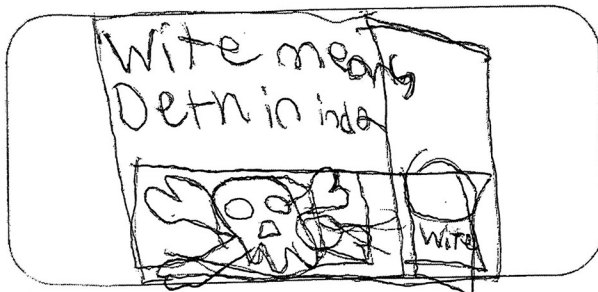

The Secondary colors are the colors you get if you mix the primary colors. For example if you mix red and blue you get Purple or if you mix red and yellow you get Orange. The Secondary colors are purple, green and orange.

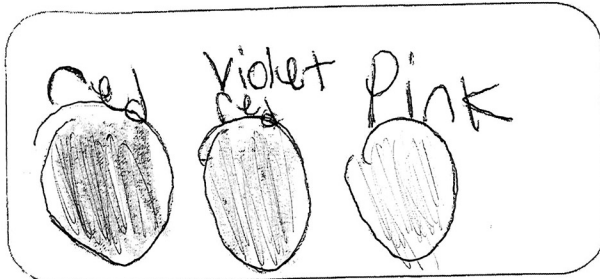

Thar are Different Shades of
 each color. ~~For~~ For excapul
 thar is light Violt, Dark Violt
 and Violt. Thar's adlso light
 Green, Dark Green and Green.
 A shade is when a color
 is light or Dark.

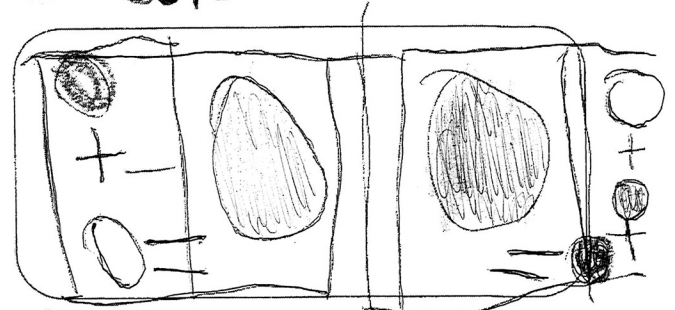

4 Fun Facts About color

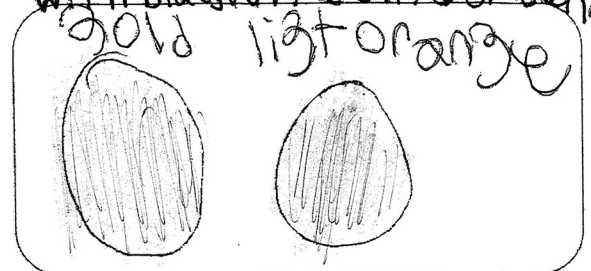

In inda wite is the color of Deth.

Everysingue color has a ~~made~~ sade family like the red sade family.

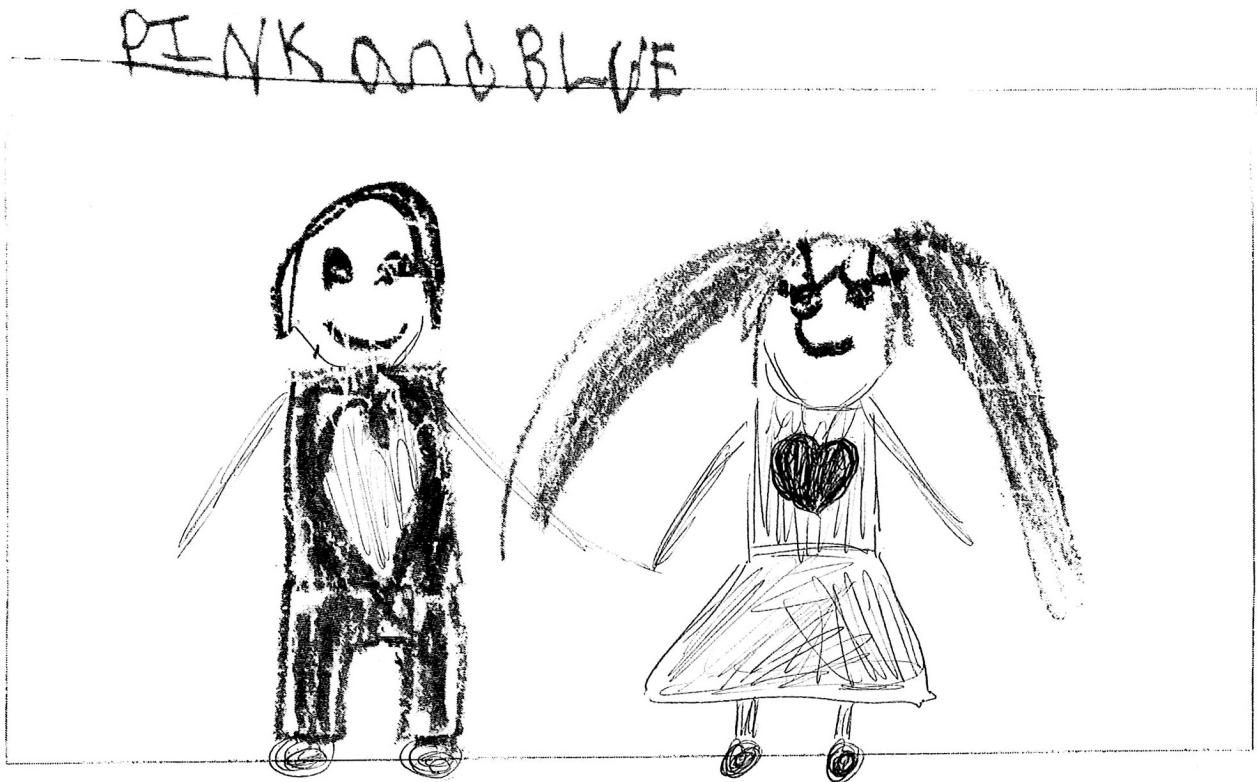

Toogers int's Baby blue with a Different name. Baby blue is made with wite and blue but teroas is made with blue wite and green.

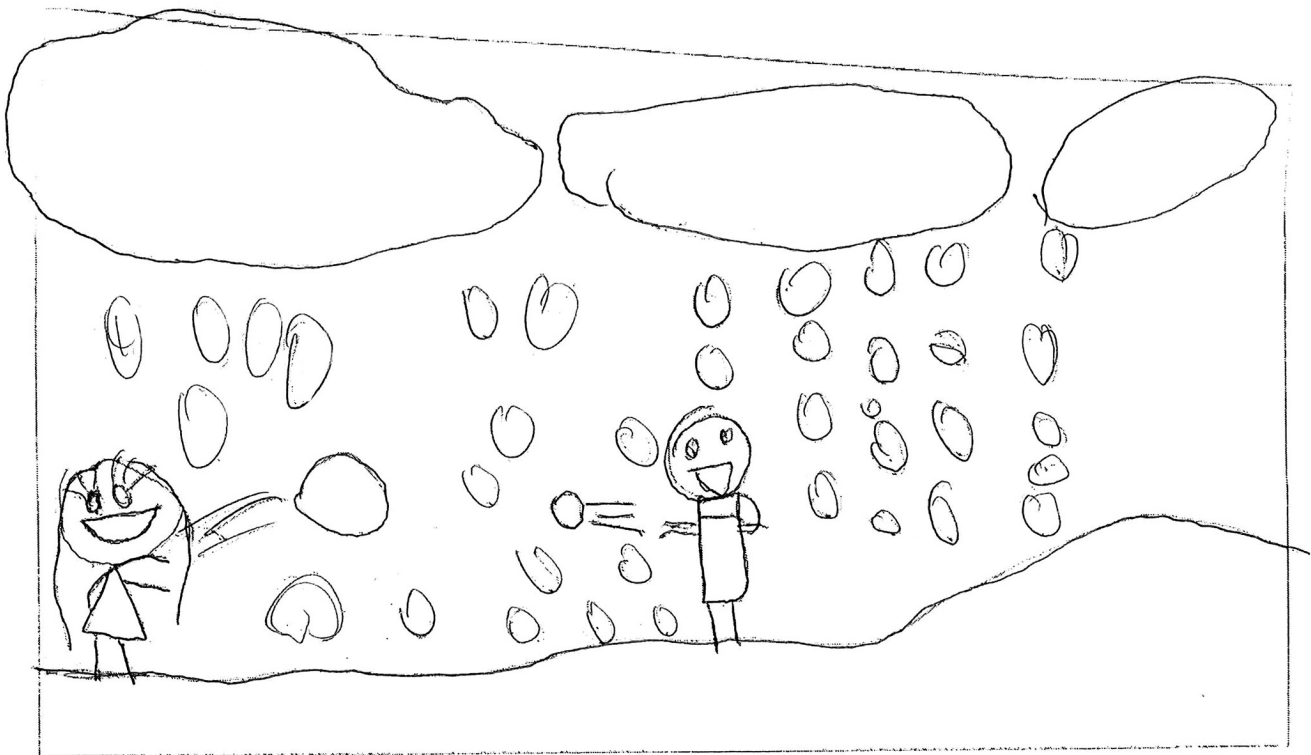

Gold and light orange look siater.

5

Pink and blue are colors
that are very popular for ~~Boys~~
Kids, especially BABYS. People
today say that pink is for girls and
blue is for Boys, ~~but~~ but back
Then they said pink was for
Boys and blue was for girls,
~~X~~ but both of those sayings
are not true. ~~Pink and blue~~

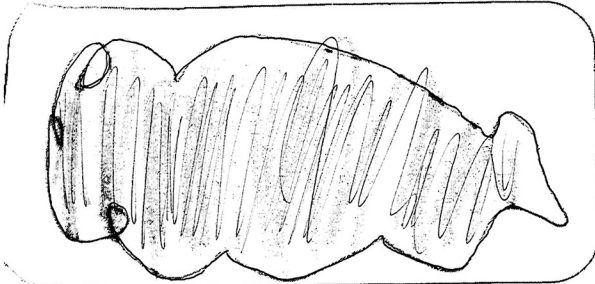

because blue is't Just for Boys
and Pink is't Just for Grels. some
times Boys waer Pink and some
times Grels waer Blue. that's
why those sayings ~~are not~~
aren't true

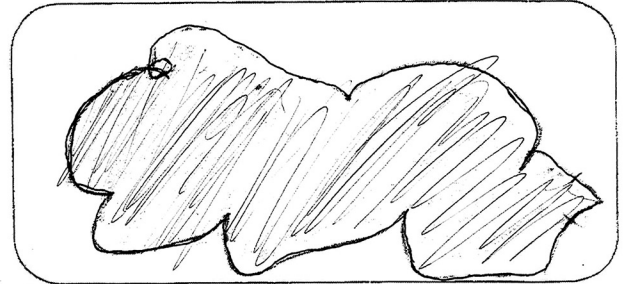

White is not a primary
 color ~~but~~ but you can't make it
 out of any other color. Snow
 is white and the clouds are white.
 There are a lot of things and colors we
 need white for. Some colors are made
 with white. Pink, Baby Blue, light Green
 and light violet all need white
 to be a light color. ~~the~~

~~5 SINGLE LINES~~
all of the things in the ~~world~~
World have color. from the
best popper color to the most
popper color that is so much
~~you~~ you can learn about
color.
