Chapter 1: Introduction
 Crack! Homefun! Hi today I'm going
 to teach you about baseball. The chapters I
 wrote are: Introduction, What is baseball? How to
 play baseball, Fielding and positions, Equipment
 You need, labeled diagrams, Metal bats vs. Wooden bats
 my top 3 favorite baseball players.
 There is also a table of contents and
 glossary. Look in the book to discover new
 things!!!!!!

page 2

Chapter 2 : What IS Baseball?

Baseball is a famous sport in .

baseball, there are positions 1st, 2nd, 3rd, Home plate, catcher, center field, Right field left field, Pitcher.

Baseball involves players. You also should have arrangements for games to be ready to have enough equipment for every body to use.

You should also have uniforms so you know what team you're on.

Baseball needs to be arranged for younger kids and older kids. Even adults.

page 3

Chapter 3: Equipment you Need

Before you play baseball, you need equipment.

Ouch! A guy was running, he fell and hurt his head.

That's why you should have a helmet to protect your head.

Crack! Ouch! That's why you need a bat instead of using your hand.

What? That's why you need a baseball so you don't get confused if he threw the ball or not.

Crack! Ouch! He caught the ball with his hand, that's why you should have a baseball mitt. You're out! That's why you have bases so there's a way not to get out.

Whoh! That's why you should have a baseball bag so you don't drop anything.

Yah! whoo! Most important thing is a team!!!!!!

You're out, but we don't have enough space. That's why you need to play on a field or find a good spot to play in that has a lot of space.

chapter 4: Jobs For Every Position

In fielding the positions are 1st, 2nd 3rd, home plate, Pitcher, Center field, left field, Right field. Short stop, catcher. Each position has a different job. At first base the job is to get people out. At second base, the job is to make sure the ball gets to the pitcher. The job for Short stop is if the ball goes in between 2nd and 3rd base is to catch the ball. When it's foul, you want to catch it. Also you should get the ball if it's not foul and close to you. Right field's job is to get the ball to 1st base. Left field's job is to get the ball to the pitcher. Center field's job is to get the ball to second base. The job for catcher is to get the ball to the pitcher.

Chapter 5: How to play baseball

Before you play baseball you need to

learn the basics: line drive, grounder, high pop, bouncing ball.
 To catch a line drive you need to put your glove
 sideways and at your chest. A grounder is when
 the ball rolls on the ground. To get
 it, put your Mitt on the ground and
 bring your arms in. To catch a high
 pop, put your Mitt under the ball and
 squeeze and put your other hand over
 the Mitt. Bouncy ball, hint: keep your eye
 on the ball because it can bounce
 anywhere.

Chapter 6: Fielding and positions

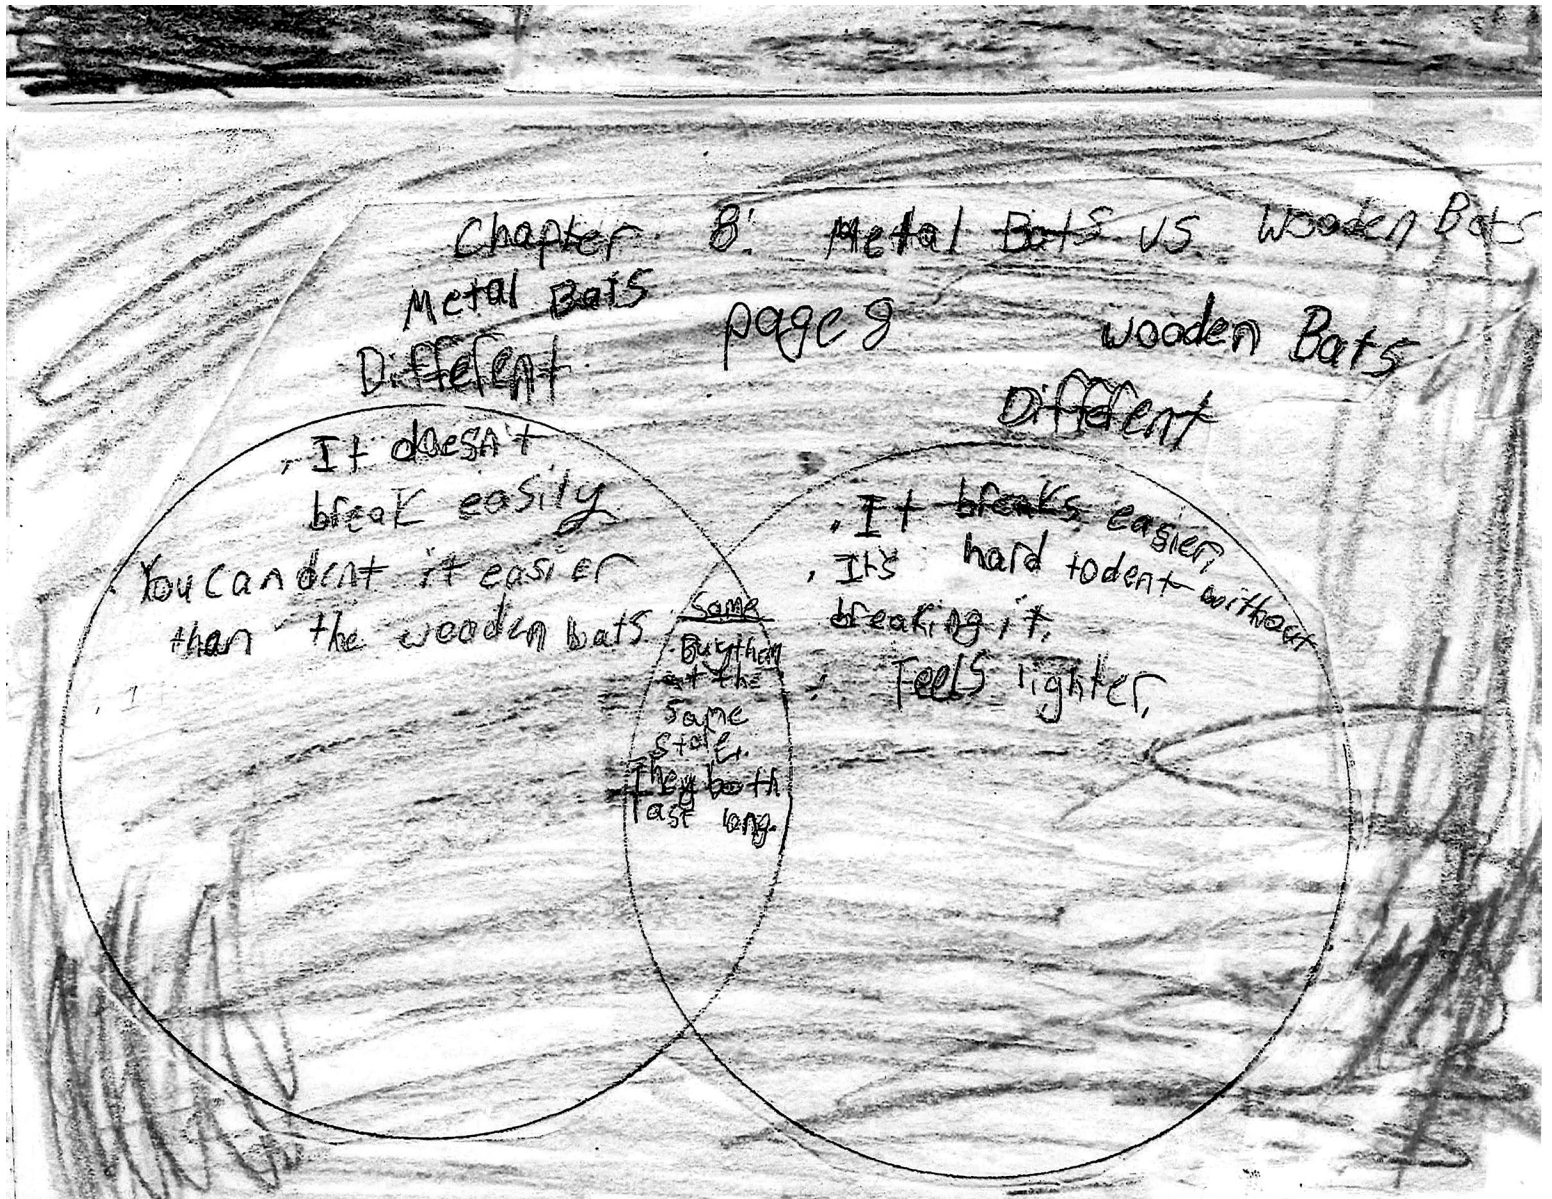

In baseball there are positions: 1st, 2nd, 3rd, Home plate, center field, Right field, left field, Pitcher, catcher.

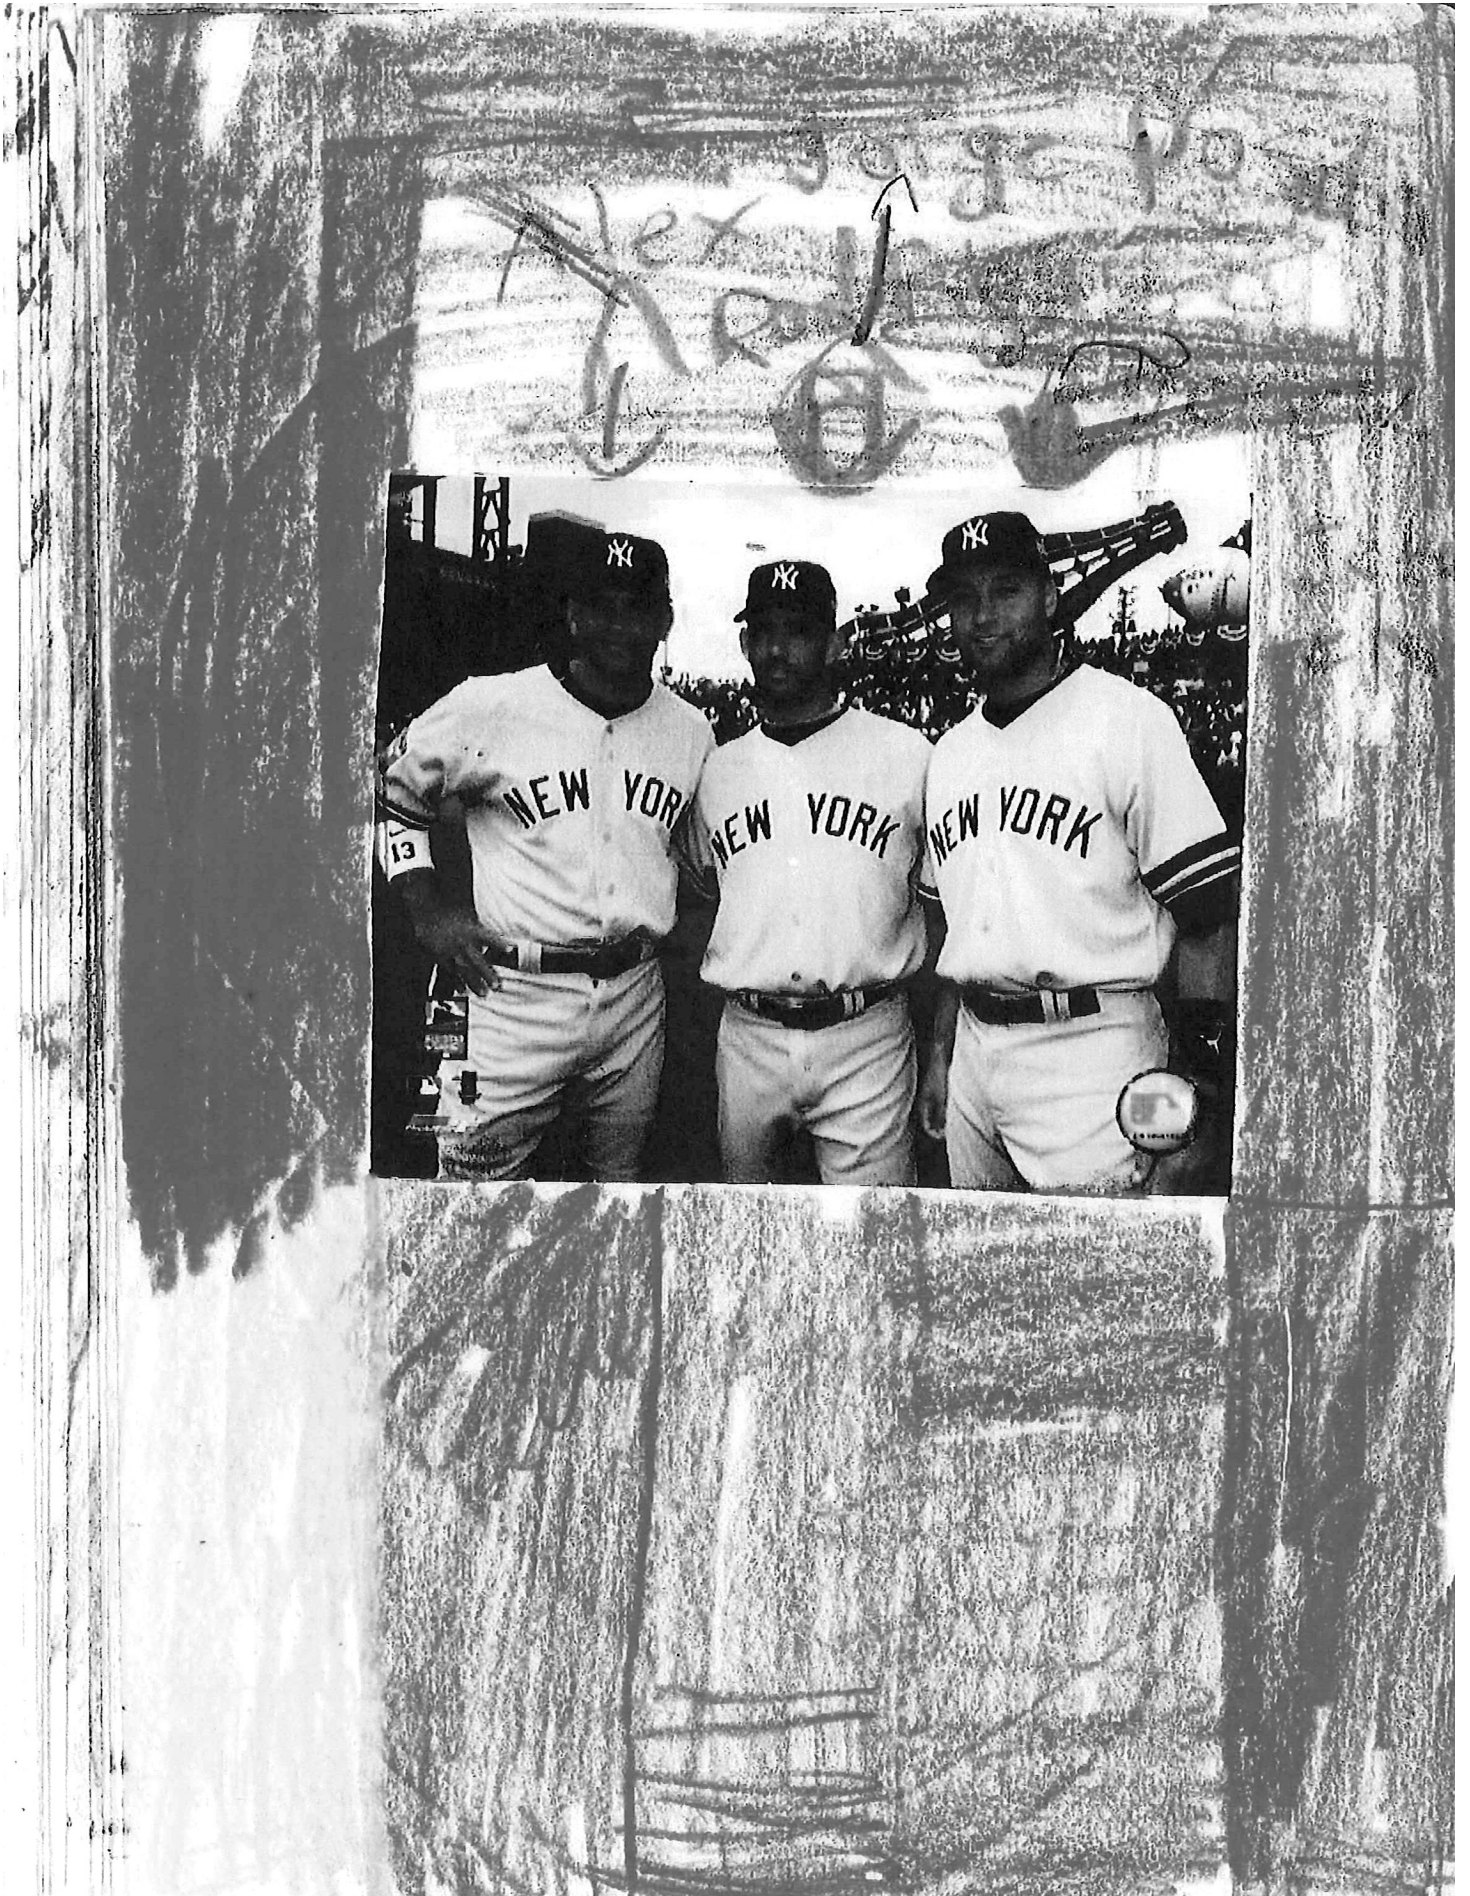

In fielding pitcher stands where the pitcher's mound is. 1st stands were 1st base is but a little off the base. 2nd base is behind the pitcher but plays a little in between. 1st and 2nd 3rd base stands next to the foul line but comes a little off the base.

Home plate is the base where you score you are safe and scored a run.

Catcher plays behind home plate and catches the ball when the pitcher pitches the baseball.

Chapter 9: My Top 3 Favorite Baseball Players

page 9

My top 3 favorite baseball players are: Derek Jeter, Alex Rodriguez, Jorge Posada.

I like Derek Jeter because he plays shortstop and shortstop is one of my favorite positions.

I like Alex Rodriguez because he has been on different baseball teams and he plays 3rd base and I play 3rd base a lot.

I like Jorge Posada because he plays catcher and I think catcher is a good position because you can see the whole entire baseball field and you get to wear equipment. Sadly, he retired. "I wish he didn't retire."

Chapter 6: Glossary

Page 10

Mitt: You use it to catch the ball with.

Bases: Any one of 4 corners of a infield, Marked by a bag of plate, that Must be touched by a runner before a run can be Scored.

Homerun: When you run around all 3 bases without getting out.

2 run homer: When there is 1 person on base and you or somebody else hits a homerun.

3 run homer: When there are 2 people on base and you or somebody else hits a homerun.

Grand Slam: When bases are loaded and you hit a homerun or somebody else (counts as 4 runs)

Chapter 11: Conclusion

Page 11

Is Baseball your favorite sport?

Here are the 3 most important reasons

#1; Keep your eyes on the ball.

#2 "If you had fun you won.

#3 ALSO you need to have good
Sportmanship. (If you fight with your teammates,
or the other team you could get hurt
or get kicked out of the game.
