More people should by hamsters
for pets.

do you know those small furry
creatures not dogs they
take alot of efferet I mean
hamster easy to take care
of and cute. First... hamsters
don't need alot of space, they
are tiny so if you give them
some space they can fit and
live there.

Also... hamsters are very easy
to take care of all you need
to have is

1. cage = to live in
2. Shredded news paper = to go to
3. the bath room on
3. Water = to put in the
water bottle
4. Water bottle = to put the
water in
5. food = to eat
6. pooper scooper = to
pick up poop

you should clean and refill →

monthly except for food refill
food every two days.

Next... hamsters are small
so they don't need
a lot more food so you
don't need to pay a lot
for food.

Imagen a world with out
hamster no cute furry faces
to stare at when your
board would that be good?
