

Self Note:

Next year ask Student Council if we can have a fundraiser to adopt an endangered animal for each grade. This will be very educational.

We Need To Save Burrowing Owls!

My audience is going to be the Student Council

I want my reader to donate money to save Burrowing owls.

Solution:

One way to solve this problem is to donate money to a fundraiser that saves endangered animals.

Another way is to have a fundraiser. The more money we ~~we~~ get the more animals we can adopt.

Reasons

Burrowing Owls are amazing creatures, reason 1. Without them the world won't be the same.

Burrowing Owls eat rodents. If they are gone, the rodent population will overpopulate. Crops will fail. Rodents eat eggs and then duck meat will be scarce.

Save Burrowing Owls!

Problem

Burrowing Owls are endangered because people destroy their habitat by building farms and clearing more land to grow crops.
