

I love ice-cream because you can add different toppings, there is so many flavors, and it is refreshing on a hot day.

I adore ice-cream because you can add different toppings. There is sprinkles, chocolate chip, and so many others. Toppings with ice-cream is such a wonderful blend. Once, I went to an ice-cream store, and they had so many delicious toppings, so I put all of them in one. I love ice-cream with toppings!

I love ice-cream because there are so many flavors. There are strawberry, vanilla, and chocolate. There are all so tasty and good. I went to this ice-cream shop once, and they had over 30 flavors! I love all the different flavors.

I especially love ice-cream on a hot day. When I eat it, it is so refreshing! It cools me down real fast. One time, it was a hot summer day in June and we went to buy ice-cream. When I ate it, the coolness went through my whole body. I love ice-cream on a refreshing day!
