Recess should be longer.  
Recess should be longer because  
it would give students more  
exercise.

For example I was waiting  
in the line of kickball to kick.  
8 minutes later recess was over.  
If recess had been longer I would  
have got to kick and done some  
exercise.

On top of that I wanted to  
exercise, so I started to run  
some laps. 6 minutes later recess  
was over. If recess was a  
little longer I would have  
got some exercise into me.

Lastly I asked some students  
in my class "do you think if  
recess was longer you would get more  
exercise?" 10 out of 14 students said "yes."  
Another reason why recess should

be longer is students will get all their extra energy out of them and ready to learn after.

For example, I was playing tag and 5 minutes later recess was over. Tears started to swell up in my eyes. I had done so much work and this is my break! I was flabbergasted and enraged. I thought my face would be red and have hot smoke pouring out of my ears. I clenched my fist and wanted to scream. If recess was longer students would be relaxed and get all their extra energy out of them.

Also I was playing manhunt, 10 minutes later recess was over. I was so mad I think veins were popping out of my head.

If recess was longer I would have been relaxed.

Lastly I asked students "if there were more recess, would you be more relaxed?" Everyone said "yes."

The last reason why recess should be longer is students get to spend more

time with their friends.

For example I was talking with my best friend, 1/minutes later recess was over.

I would have got to spend more time with my friend if recess was longer.

Lastly I was playing soccer with my friends. 9 minutes later recess was over. If recess was longer I would have got to play more with my friends.

As you can see students at PS321, you know Recess should be longer!!!
