The Boston Tea party

The sons of Liberty had a plan to stop the tea from unloading. ~~was~~ In 1773 three ships arrived to the harbor the sons of liberty dressed up as indian's so the British would not no it's them then the sons of Liberty dumped 342 chests into the harbor ~~which is~~ 123,120 pounds ~~of tea~~ <sup>was dumped</sup> which is worth about 18,000 pounds <sup>British currency</sup>. I think it took them a pretty long time. They kept dumping and dumping loads of tea until they were stopped by some troops and loyalists. ~~After this happened the king got really angry so to get the sons of liberty back he did a few things to everyone. This was called~~

• Loyalists (people loyal to king)

After this happened the king was really mad so to get everyone ~~back~~ back he closed Boston Harbor until all the tea was paid for which was a lot of money and he also let out the Intolerable / Coercive acts. Also the money didn't go to the sons of liberty it went to the colonists to pay for
