2. Discuss one (1) or more of the following:

1 Significance - End by explaining why this topic is so vitally important for your reader to know about. Why does it matter?

2 Alternatives - End by explaining what people should be doing differently + why. Why is the current way of thinking flawed? Offer a solution to a problem.

3 Connections - End by linking this issue to a related issue. Or, end by linking this issue to your own personal experience.
