

FIG. 12-2 Emily's reflection

Reflecting - Writing assessment practice

Purpose: to reflect on the writing assessment

Strategy: reflection

How did it go? What was or wasn't hard?

It wasn't as hard as I ~~anticipated~~ ^{thought} it would be. The hardest part was deciding which evidence best supported my claim. It was easier to write the essay about child soldiers when I planned a bit.

I also found transition from paragraph to paragraph hard. I didn't know for sure whether I was done with a paragraph or not ^{and} what I could've added.

What is my growth in writing essays?

I feel like I did better than my old writing assessments. I have improved ~~to~~ mostly in organization. ~~Also~~ I think my focus and clarity have also improved. I don't switch/jump to other ~~topics~~ and ideas.
